Denver, Colorado 80202-2405

Dear Mr McGraw

Your letter of February 25, 1994, regarding the current work stoppage for Operable Units 2 through 7 at Rocky Flats, discussed two issues (1) properly amending the Interagency Agreement (IAG) to establish a process for restarting work, and (2) agreeing on a methodology for aggregating remedial investigation data for the purpose of conducting human health exposure assessments. Regarding the first issue, I agree with your addition to the proposed Paragraph 164 amendment. The second issue was discussed by members of the Dispute Resolution Committee, who have reached agreement. With both issues resolved, the work stoppage order should be rescinded and exposure assessment work at Rocky Flats may resume April 4, 1994. Please recognize that technical issues will arise during implementation of the data aggregation method. These issues will be addressed on a site-specific basis by our technical staffs.

I appreciate the time your staff has spent on the resolution of these issues.

Sincerely,

Mark N Silverman  
Manager
